01. Purpose of this Disclaimer

This Risk Disclaimer explains the nature of the information, analytics, educational materials, trading scenarios, and related content made available through Signal Codex.

Users should carefully review this Disclaimer before relying on any information provided through the Services.

Important

Trading and investing in financial markets involves substantial risk. Users should not rely on Signal Codex content as the sole basis for any trading or investment decision.

02. Nature of the Services

Signal Codex provides analytical content, market intelligence, educational materials, trading scenarios, sentiment data, market reviews, technical analysis, fundamental analysis, heatmaps, and related information.

The Services are designed to assist users in understanding market conditions and identifying potential trading opportunities.

Signal Codex does not operate as a broker, investment firm, financial adviser, portfolio manager, asset manager, custodian, payment provider, or trading venue.

Signal Codex does not execute transactions on behalf of users.

03. No Investment Advice

All information provided through the Services is made available for informational and educational purposes only.

Nothing contained within the Services constitutes:

- investment advice;
- financial advice;
- tax advice;
- legal advice;
- investment research as defined under applicable financial regulations;
- a recommendation to buy, sell, hold, or otherwise transact in any financial instrument.

Users should not interpret any content provided by Signal Codex as professional financial advice.

04. No Personal Recommendations

Signal Codex does not provide personalized investment recommendations.

The Services do not take into account any individual's:

- financial situation;
- investment objectives;
- risk tolerance;
- trading experience;
- personal circumstances.

All analytics and trading scenarios are generated and presented on a general basis and are not tailored to any specific user.

05. Educational and Informational Content

Signal Codex may provide educational materials, including guidebooks, market explanations, trading concepts, analytical methodologies, and learning resources.

Such materials are provided solely for educational purposes.

Educational content should not be interpreted as a recommendation to engage in any transaction or investment activity.

06. Trading Scenarios and Analytics

The Services may display trading scenarios, market outlooks, technical levels, sentiment indicators, analytical conclusions, entry levels, take profit levels, stop loss levels, risk-reward ratios, and similar information.

Such information:

- represents analytical opinions, models, or interpretations;
- is provided for informational purposes only;
- does not constitute investment advice;
- does not constitute a solicitation to trade;
- does not create any fiduciary relationship between Signal Codex and the user.

User Responsibility

Users remain solely responsible for evaluating any information before making trading decisions.

07. No Guarantee of Performance

Past performance does not guarantee future results.

Market conditions change continuously and analytical conclusions may become inaccurate, outdated, incomplete, or irrelevant.

Signal Codex makes no representation or warranty regarding:

- profitability;
- investment returns;
- trading performance;
- accuracy of future market movements;
- achievement of any financial objective.

Users may lose part or all of their invested capital.

08. User Responsibility

All trading decisions are made solely by the user.

Users remain exclusively responsible for:

- evaluating information;
- assessing risks;
- determining position sizes;
- selecting trading strategies;
- entering, modifying, or closing transactions.

Signal Codex assumes no responsibility for decisions made by users based on information available through the Services.

09. Third-Party Trading Platforms

Signal Codex may provide links, integrations, launch buttons, or other mechanisms that allow users to access third-party trading platforms operated by brokerage partners.

Signal Codex does not control, operate, or manage such third-party platforms.

Any transaction executed through a brokerage platform is conducted solely between the user and the applicable brokerage provider.

Signal Codex is not responsible for:

- order execution;
- pricing;
- spreads;
- commissions;
- account balances;
- platform availability;
- brokerage services.

10. Market Risks

Trading financial instruments involves significant risk.

Financial markets may be affected by:

- market volatility;
- liquidity fluctuations;
- geopolitical events;
- economic developments;
- technological disruptions;
- regulatory changes;
- unexpected market conditions.

Users should carefully consider whether trading is appropriate for their individual circumstances.

Independent professional advice should be obtained where necessary.

11. Limitation of Liability

To the maximum extent permitted by applicable law, Signal Codex shall not be liable for any direct, indirect, incidental, consequential, special, punitive, or economic loss arising from:

- reliance on information provided through the Services;
- trading decisions;
- investment losses;
- missed opportunities;
- market movements;
- interruptions in availability of the Services.

Users acknowledge and accept all risks associated with trading activities.

12. Changes to this Disclaimer

Signal Codex may update this Risk Disclaimer from time to time.

The most recent version will be published through the website or Services.

Continued use of the Services following publication of an updated version constitutes acknowledgement of the revised Disclaimer.

13. Contact

Questions regarding this Risk Disclaimer may be directed to the contact information published on the Signal Codex website.

In the event of any inconsistency between language versions of this Risk Disclaimer, the English version shall prevail.
